Fox Hill Village

After an elegant meal at Fox Hill Village, OZZIs provide a stylish way to take leftovers home.

Combined with apartment deliveries, Fox Hill residents are not only helping the environment, but saving \$1500 - \$1800 per month, in the OZZI Program!

There are many reasons why here at UNCC we are so excited to have an O2GO program. For starters, students love it! It's an easy to-go system where students can fill up their containers, and then place them in the machine to be returned. Another reason is that the containers help reduce waste and promote sustainability. Within the food industry, there are many ways to reduce your carbon footprint, and O2GO has helped us take one step forward to our company's sustainability goal. With our O2GO machine on campus, there are endless possibilities on how we can change dining experiences for the better!
